DETAILED ACTION

The amendment filed on January 8, 2004, amending claim 1 and canceling claims 5-23, has been entered.

Claims 1-4 are pending.

Response to Arguments

Applicant's arguments, filed on January 8, 2004, with respect to claims 1-3 have been fully considered and are persuasive. The rejection of claims 1-3 under 112, 1st paragraph has been withdrawn in response to the insertion of the functionality of the polypeptide.

Applicant's arguments, filed on January 8, 2004, with respect to claims 1-4 have been fully considered and are persuasive. The rejection of claims 1-4 under 102(b) has been withdrawn. Applicants argue that the cited reference is not enabling because the M. incognita MDH described in the reference is not purified. Applicant's arguments are persuasive.

Allowable Subject Matter

Claims 1-4 are allowed.

The following is an examiner's statement of reasons for allowance:

BRENDA, the Enzyme Database: EC number - 1.1.1.37, teach malate dehydrogenase from many different sources. Malate dehydrogenase of SEQ ID NO:3 of the instant invention is closest in sequence identity to the malate dehydrogenase

Art Unit: 1652

from *Caenorhabditis elegans*, around 50%. Figure 3 of the specification teaches the conserved regions between the two enzymes and crystal structures of many malate dehydrogenases are available (see BRENDA, pages 39 and 43). Birktoft et al. (Biochemistry, Vol. 28, pages 6065-6081, 1989) teach a crystal structure of a malate dehydrogenase and domain structures of the enzyme (Figure 1 and pages 6067-6069 and 6072). Therefore, art and specification provide ample teachings for polypeptides having malate dehydrogenase activity having at least 70% identity to the malate dehydrogenase of SEQ ID NO:3 of the instant invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
